

Blended BLS, CPR AED, First Aid CPR, or Pediatric First Aid CPR Certification

www.cpreducationtexas.com

In order to attend students must first complete the American Heart Association Online Course associated with the certification they require. Our American Heart Association BLS, CPR AED, First Aid CPR, or Pediatric First Aid CPR skill sessions are held via Google Meet at one of our locations in the Houston Texas area. The Instructor will not be in the room with you and will send you the Google Meeting link once you arrive on location. The Instructor will attend the Google Meet and monitor your session from a remote location. Students must supply a smartphone, tablet, or laptop capable of completing the google meet video call. WIFI is available on location. The CPR manikins are also on location therefore, students are required to physically go to the location to complete the hands-on skills check.

To complete your certification, follow the instructions below

- [Book a Skill Session](#)
- Download the Google Meet App
- [Purchase and complete the online course](#)
- Upload or send a copy of your certificate of completion to: cpreducationclass@gmail.com
- Go to the conference room on location a few minutes before your appointment time
- Log on to the Guest WIFI
- Set up your smartphone on the phone tripod
- Join the Google Meeting using the link sent to you by the Instructor
- Complete your skill check
